### **Every Day Is Good**

Today is a day  
And I'm feeling good.  
Tomorrow's a day  
And I will feel better  
Because every day  
Is closer and closer  
To that very cool day  
When you'll send me a letter.

### **8 or 9?**

Mercury, Venus and other ones  
Can't reach any of the guns.  
But the Pluto is so small,  
From the sun it's the furthest of them all.  
Are there 9 or are there 8  
Planets in the sky that're great?  
The sky can't finish any time.  
It's not yours and it's not mine.
