

# Once upon a time...

*Zhenya Pereverzev likes stories about robots. Here's one of his stories. Enjoy your reading!*

## Robot Story

Once upon a time there lives a small white robot. His name is Mo. Mo the Robot lives in a spaceship. Mo wants to keep the spaceship clean. He is a good cleaner. And he wants to fly to the Earth. But the main computer doesn't want to take to the Earth.

Mo and other robots trick the main computer and fly home. They are very clever!
